PROLOG

Thank you for downloading Jesters **EMERALD PACK**

A capture of my beautiful Marshall 1960ax Cabinet from 1998.
This Cabinet is loaded with Celestion Greenback G12-M 25W Speakers.
It delivers a classic sound and also sound familiar in Metal Productions for more than 25 Years.

Impulse Responses are something wonderful.
Never has it been easier to create crushing Guitar Tones on such a high level of quality.
And all this without annoying the Neighbors or the Police if you crank up the Amp.
And believe me, these IR's are beautiful and brutal!
Keep in mind, the Speaker and the Cabinet defines the biggest Part of your Sound.
We all invest too much time in tinkering our Guitar Sound instead of making Music.
That is why I selected only the best IR's I've created.
I've invested the Time so you don't have to.

But if you like the Responses consider to buy me a Beer with my Paypal Link above.

You'll find an Overview about the Mics and Speakers but the Presets only have funny names.
Use your ears and play what you like, not what you think you will like.

All IR's are completely free to use in your private and commercial Projects.

Stay Heavy be Happy!

Jester
